

AMDAD HUSSAIN JUNED

Junior Full Stack Developer | React.js | PHP / Laravel | MySQL

Setúbal, Portugal (open to relocation) | hussainjuned99@gmail.com | +351 920 357 268

linkedin.com/in/hussain-juned | github.com/HussainJuned

Summary

Full Stack Developer building web applications with React.js on the frontend and PHP/Laravel on the backend, connected through REST APIs and backed by MySQL. Currently working part-time as a remote Full Stack Developer at Advance Solution, and holder of an M.Sc. in Computer and Systems Science from Stockholm University. Works autonomously, picks up new technologies quickly, and communicates clearly in fluent English.

Experience

Full Stack Developer (Part-time, Remote) *Advance Solution | June 2025 – Present*

- Develop and maintain web application features across the frontend and backend in a remote team.
- Collaborate with teammates to deliver, test, and fix features used in production.

Technical Skills

- **Frontend:** React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap, Tailwind CSS
- **Backend:** PHP, Laravel, Node.js, REST APIs / web service integration
- **Databases:** MySQL, MongoDB, Firebase Firestore
- **Tools & Cloud:** Git, GitHub, Bitbucket, npm, Vite, AWS, Firebase
- **Practices:** Object-Oriented Programming, MVC, Repository Pattern, Responsive Design, Debugging, System Integration
- **Languages:** English (Fluent)

Projects

News Platform — Full Stack Web Application *React | PHP | Laravel | MySQL | Bootstrap*

- Designed and built a Laravel (PHP) backend exposing REST APIs for articles, categories, and navigation, following the MVC pattern with a relational MySQL data model.
- Developed a responsive, mobile-first React frontend from reusable components, consuming the Laravel APIs to deliver dynamic content.

StockSmart — Inventory & Order Management App *Flutter | Firebase | Hive | 2025*

- Architected a cross-platform app with a layered Repository Pattern, cleanly separating UI, business logic, and data access.
- Implemented offline-first storage with background cloud sync, item-level conflict resolution, and guest-to-account data merging.

Education

M.Sc. in Computer and Systems Science *Stockholm University, Sweden | 2026*

- Thesis: *Performance Benchmarking of React, Vue & Svelte Under High Data Load* — designed controlled experiments on real-time, high-volume data, analysed rendering performance, and defended the results.
- Coursework: System Integration, Enterprise Computing & ERP Systems, Advanced Requirements Engineering, Information Security.

B.Sc. in Computer Science and Engineering *Leading University, Bangladesh | 2014 – 2018*

- Final grade: 15.95/20.
- Coursework: Web Technology (Full-Stack Development), Database Management, Object-Oriented Programming, Software Engineering, Data Structures.

Certification

- Meta Front-End Developer Professional Certificate — JavaScript, React.js, responsive web design, version control, and debugging. [\[Verify credential\]](#)
